SUPPLEMENTARY INFORMATION:

Background

The Southeast Alaska Purse Seine Salmon Fishery is a commercial fishery in Alaska State waters and adjacent Federal waters. It encompasses the commercial taking of salmon with purse seine gear and participation is limited to fishermen designated by the Alaska Commercial Fisheries Entry Commission (CFEC).

The Fishing Capacity Reduction Program was established under the Consolidations Act of 2005 (Section 209 of Title II of Division B of Pub. L. 108-447). This Federal law was subsequently amended by Section 121 of Public Law 109-479 (the Magnuson-Stevens Reauthorization Act of 2006) codified at 16 U.S.C. 1801 *et seq.* The authority for the SRA to conduct this program under Alaska law is AS 16.40.250.

Based on these Federal and state measures, the NMFS established regulations in the **Federal Register**, (76 FR 61986; October 6, 2011), to administer and implement the program.

The purpose of the program and this plan is to permanently reduce the number of limited entry fishing permits issued by the Alaska Commercial Fisheries Entry Commission (CFEC) for the Fishery thereby promoting economic efficiency and improving the conservation and management of the Fishery.

Congress authorized a \$23.5 million dollar loan to finance a fishing capacity reduction program in the Southeast Alaska Purse Seine Salmon Fishery. NMFS published proposed program regulations on May 23, 2011 (76 FR 29707) and final program regulations on October 6, 2011 (76 FR 61986) to implement the reduction program.

In 2012, NMFS conducted a referendum to determine the remaining fishermen's willingness to repay a \$13.1 million fishing capacity reduction loan to remove 64 permits. After a majority of permit holders approved the loan, NMFS disbursed payments to the successful bidders and began collecting fees to repay the loan. Since only \$13.1 million was expended from the total loan amount, \$10.4 million in funds remained available.

In 2018, the SRA informed NMFS that they wished to access the remaining loan amounts to undertake a second buyback. To implement this next buyback, the SRA, on behalf of the reduction fishery, was required to draft and submit a reduction plan to NMFS. On June 21, 2018, the SRA submitted a reduction plan to access \$10.1 million

of the remaining \$10.4 million in funds to remove 36 permits. NMFS approved the proposed second fishing capacity reduction plan in November 2018.

NMFS published a notice of eligible voters on December 3, 2018 (83 FR 62302) informing the public of the permanent permit holders eligible to vote in the referendum and informing the eligible voters of the referendum voting period.

Purpose

The purpose of this notice is to announce the current fee rates for the reduction fishery in accordance with the framework rule at 50 CFR 600.1013(b). Section 600.1013(b) directs NMFS to recalculate the fee to a rate that will be reasonably necessary to ensure reduction loan repayment within the specified 40-year term.

For the 2022 fishing season, the fee rate for both Loan A and Loan B was one percent of the landed value and any subsequent bonus payment. Loan A is currently 13 years ahead of the scheduled amortization and will remain well ahead so we are leaving the rate at 1 percent of gross value of salmon sold. Loan B is 1.5 years behind the scheduled amortization and currently owes more than the original loan amount. Beginning June 1, 2022, the Loan B fee rate will be increased from 1 percent to 2.5 percent of gross value of salmon sold and is projected to be current at the end of the 2022 season.

Fish buyers may continue to use *Pay.gov* to disburse collected fee deposits at: <http://www.pay.gov/paygov/>. Please visit the NOAA Fisheries website for additional information at: <https://www.fisheries.noaa.gov/alaska/funding-and-financial-services/southeast-alaska-purse-seine-salmon-fishery-buyback-program>.

Notice

The new fee rate for the Southeast Alaska Purse Seine Salmon Fishery will begin on June 1, 2022.

From and after this date, all subsector members paying fees on the Southeast Alaska Purse Seine Salmon Fishery shall begin paying program fees at the revised rate.

Fee collection and submission shall follow previously established methods in § 600.1013 of the framework rule and in the final fee rule published in the **Federal Register** on October 6, 2011 (76 FR 61985).

Authority: 16 U.S.C. 1861 *et seq.*; Pub. L. 108-447.

Patent and Trademark Office

[Docket No. PTO-T-2022-0017]

USPTO To Accelerate Transition To Issuance of Electronic Trademark Registration Certificates; Issuing Next Certificates on May 24, 2022

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Notice.

SUMMARY: The United States Patent and Trademark Office (USPTO) is accelerating the transition date for issuance of electronic trademark registration certificates to May 24, 2022. On and after that date, the electronic registration certificate will be the official registration certificate. Because of a nationwide shortage of the specialized paper, and a recent vendor disruption, the USPTO will not issue registration certificates between May 10 and May 23, 2022, while the USPTO transitions to this new program. The new program will make the issuance of registration certificates more resilient. After the USPTO begins issuing electronic registration certificates, trademark owners will have the option to order paper “presentation” copies. Registrants will also continue to be able to order certified copies of their trademark registrations.

FOR FURTHER INFORMATION CONTACT: Catherine Cain, Office of the Deputy Commissioner for Trademark Examination Policy, USPTO, at 571-272-8946 or TMFRNotices@uspto.gov.

SUPPLEMENTARY INFORMATION: The USPTO published a notice in the **Federal Register** on May 2, 2022 (87 FR 25623), notifying the public that it would begin issuing trademark registration certificates electronically via the Trademark Status and Document Retrieval (TSDR) system on June 7, 2022. The USPTO is accelerating the transition date for issuance of electronic trademark registration certificates to May 24, 2022. The new date accelerates the benefits of the electronic certificates, quickly adjusts for a paper vendor disruption that recently presented, and improves the resiliency of the USPTO to issue trademark registrations going forward.

The USPTO will not issue registration certificates between May 10 and May 23, 2022, while it transitions to the new, electronic process. In the course of addressing the issue caused by the paper shortage, the status of some applications was inadvertently changed to registered on May 10. The USPTO corrected the status of those applications to pending on May 11.

As stated in the May 2, 2022 notice, upon implementation of electronic trademark registration certificates, all registration certificates issued by the USPTO will be made under the electronic signature of the Director and with a digital seal, which will authenticate the registration. The USPTO will upload the official registration certificate to the TSDR database, and an electronic notice will be emailed to the trademark owner and all email addresses of record with a link to access the certificate upon issuance. Trademark owners will be able to use the emailed link to view, download, and print a complete copy of the registration certificate at no charge at any time. Trademark owners who file an initial application on or after the implementation date will be able to order presentation copies for \$25 per copy through the Trademark Electronic Application System (TEAS). Trademark owners who filed an initial application before the implementation date will be able to order one presentation copy for free. Trademark owners will continue to be able to order certified copies of their trademark registration for a fee. The certified copy certifies the status and title of the registration and includes the signature of an authorized certifying officer.

Katherine K. Vidal,

Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.
